So, you’re considering our Explore Program

La Cité universitaire francophone is proud to present our Explore Program in Gaspé, and is equally proud of all our participants. Thank you for taking the time to discover what our program could offer you.

Is this program for me?

To find out if you would be a good fit for the program please go through the following:

- I have a genuine interest in learning and socializing with my peers in French.
- I will be 16-17 years old during the program and am prepared to take on the responsibilities of living away from home for five weeks. (Doing my own laundry, getting and / or cooking my own food on the weekends when the kitchen is closed, cleaning, managing my time to make it to classes / activities, abiding to rules, etc.)
- I am able to commit to the program from **July 04, 2023 to August 04, 2023.**
  Due to the immersive nature of Explore, we are unable to accommodate late arrivals, early departures, or other program interruptions.
- I am prepared to share apartment living spaces and potentially have a roommate (there are double and single rooms allocated at random.)
- I understand that to get around town there are limited transportation options. Our program will arrange for transportation on group outings, but during free-time and weekends, getting around means non-vehicle transportation. (This is standard for small towns, but can be an adjustment if you’re used to the transportation options that big cities offer.)
- With the help of my parent or guardian, I can arrange my transportation to and from Gaspé. (If you’re traveling to Gaspé by plane we plan to arrange a group rate for a flight from Montreal to Gaspé through a partnered airline.)
- I want to try new experiences and enjoy nature / outdoor activities!

**Weekdays:**
Language classes run in the mornings while the afternoons are dedicated to workshops and cultural activities. Breakfast, lunch and dinner are provided on weekdays.

**Weekends:**
With the exception of the camping weekend, weekends consist of one optional activity on Saturday. The rest of your weekend is spent the way you want.

**Meals:**
All meals are made on-site by our contracted chef, Monday to Friday (with the exception of the camping trip). Dietary restrictions or considerations are communicated with La Cité once registration fees are paid. Meals are not provided on weekends, but we allocate $20 per day to each participant to help with grocery costs, and / or ordering food. You’ll get to decide how to budget your funds.
French Expectations

Learning another language is hard, there’s no sugar coating that fact. This program is designed as an intensive immersion experience over the course of 5 weeks. Please note that the first few weeks can be especially hard for beginners, but it gets easier!

It’s normal to feel overwhelmed at first. To help adjust, we have a mental health professional on-site.. Stick with the program and keep trying your best, you may find yourself wishing it wasn’t over by the end of the 5 weeks! Maybe you’ll even be dreaming in French by that point!

That said, the immersion aspect of the program falls apart when program facilitators take on the role of “language policing” – we cannot stress this enough: we don’t want to be language policing! Participants must be as committed to talking in French as we are, even – and perhaps especially if it’s hard to do so.

Naturally there are instances in which speaking English would be appropriate:

- Communicating with your friends and loved ones back home during free time / breaks. Note: New friends made during the program don’t count. Fellow participants are reading the same document as you. Don’t be that person who switches to English the moment Explore staff are out of earshot – that person can end up being sent home – but more than that, it also defeats the purpose of going to Quebec in the first place. If you want to socialize in English during your summer there are plenty of other great summer programs that allow you to do so. Please do not ruin the immersion experience for others.

- Expressing concerns (such as mental health, personal, learning difficulties, etc.) to a program facilitator.

- Speaking with our mental health professional.

- And of course whenever you don’t know how to say something in French you’re welcome to say “Comment dit-on __ [insert english word or saying you don’t know in french yet here]__” – and don’t worry if you don’t even know how to say that yet! It’s one of our first lessons for our beginner classes!

The primary goal of our immersion program is to provide an environment where students actively enhance their French language skills. It is important to emphasize your active role in your own learning experience. The quality of your learning experience is directly related to the continued effort you choose to make and your willingness to speak French at all times.

You will be expected to communicate only in French throughout the five weeks. It is imperative that students who wish to hear French and practice speaking it at all times have the opportunity to do so. If you speak in a language other than French, this hinders other students’ progress as well as your own.
GET ACTIVE!

Workout

The Cégep also has a training facility Pavillon des sports Marcel-Bujold. Our partnership allows participants to have free access to their training room and pool! Some of our activities will also be located in their gymnasium.

Get Outdoors

Gaspé offers unique scenery and is the perfect destination for any outdoor enthusiast. Our Explore program takes advantage of this unique landscape and we incorporate outdoor activities whenever possible. We expect students to participate to the best of their ability.

Behind the Cégep, there are hiking trails, lookout points, and a baseball field. An outdoor community running track is also only a short ways away.

The Camping Trip

The last weekend of Explore includes a two-night/ three day camping trip that’s beginner friendly. If you’ve never pitched a tent don’t worry – we’re happy to teach you. If you’re an experienced camper, your skills will be appreciated by your peers. Our group campsite is in a field clearing at Aube Sur Mer. While not a wooded camping spot, the proximity to the ocean and low light pollution at night make it a memorable occasion.
A ONE OF A KIND OPPORTUNITY

What is the cost?

Bursary students

The bursary does not include:

- Registration fee of **$275** *(non-refundable and payable only if you receive a bursary)*
- Travel expenses
- Optional activities
- Personal expenses

Reminder to Explore participants receiving a **$2,800 bursary**:

These funds go directly toward covering tuition fees for the courses, instructional materials, meals, accommodations, workshops, and other programming activities. We ensure that the funding for this unique learning opportunity is going toward students who genuinely **want** to learn and improve their French. In other words, students who will get the most out of what the Explore program offers. So please consider the amount of commitment and dedication involved before confirming your application.

Non-bursary students

- Program fees of **$2,800** *(Covers: Tuition fees, textbooks, room and board and participation in all compulsory activities)*
- Registration fee of **$275** *(non-refundable)*
- Travel expenses
- Optional activities
- Personal expenses
Participants are divided into three class groups based on their placement test to ensure each student gets an educational experience tailored to their skill level. Beginners will be mastering basics while intermediate and more advanced level students can build on the knowledge they already have.

That’s not to say you’ll be stuck in the same classroom all day. Classes will merge for certain group projects, or a lesson will take place at a library or outside!

**Cultural Activities (Activités culturelles)**

Cultural activities is an umbrella term we use for social outings and activities. Everything from dodgeball, capture the flag, friendship bracelet making, an evening at the beach, trivia night, movie screenings, walking to the local ice cream shop, and so much more are on the table! Participants are encouraged to offer suggestions to plan these outings according to their interests.
MORE THAN MEETS THE EYE!

Workshops (Ateliers)

Students rotate through 5 different workshops throughout Explore. These workshops are designed to give students the opportunity to practice French while also learning new practical skills that can serve them in other aspects of life.

Sailing ⚓️

We have a great partnership with École de Voile le Cormoran. They offer our participants a unique 4-session program over the course of Explore. Students start by building on basic skills through canoeing and paddling before taking on the more technical skills required for sailing.

Art and Wellness

Expressing yourself isn’t always easy, especially in another language. This workshop aims to give students the tools to channel emotions and feelings into creative outlets. All students submit a final project for our end-of-year gallery.

“Bain Gaspésian”

This workshop is about immersing in the Gaspé community! Outings to the museum, helping volunteer with a kids camp, and discovering community are all activities you’ll get to enjoy.

Theater / Improv

This workshop is designed to get students out of their shell. Being silly, dancing, singing and the like are all encouraged! Everyone also has a role in our end-of-year production.

& More!

We leave a little room for flexibility in our program. The 5th workshop is TBD by our staff. In previous years, we’ve done journalism, music, but it might be something else entirely this year!
